The purpose of this form is for the club to get an accurate figure of players trying out for a particular team or age group. With this information the coach and the club will be able to make better decisions at the time of tryouts as to team creation and availability of players. The club seeks to place all players interested in playing with the Sharks at an appropriate playing level if available. The designated coach will contact late tryout request players upon their return or arrival to Naples. A team will provide a late tryout at the coaches' earliest convenience.

If you have any questions please contact the team head coach or Gavin Spooner, Director of Coaching and Operations for further assistance.
